

*Milano, 8th march 2010*

*Dearest friends of Union Lido,  
On behalf of all of us of Amani, I would like to thank you for the support you keep showing toward our Association's activities.*

*Thanks to big-hearted people like you, our organization will keep on offering warm meals to those who don't have anything to eat, the dispensary will take care, heal and supply with fundamental medications children, who don't have access to public health's structures.*

*Our centers will welcome those many who don't have a house and will allow them to live and keep their dignity as people, also in state of poverty.*

*In hard times like these there is a consolation for those who can't keep up, who know that there's somebody who can listen to the heart voice and stretch out their hands.  
The thanks of lots of Amani's volunteers and operators, together with the one of those people we can help with your contribute, is also an appeal to keep staying close to us and sustain with continuity our mission.*

*Your help is fundamental to give those people, who don't have anything, a concrete support and to offer a lot of children the hope of a different life from the one that poverty and ostracism compel them to.  
Thank you for all you have already done and will do.*

*A sincere wish of serenity,  
Paola Liberali*
